

Redmi A3

- Refined and stylish design**
- Smooth 6.71" 90Hz display**
- AI dual camera system**
- Massive 5000mAh (typ) battery**
- Secure fingerprint and face unlock**

Refined and stylish design

Redmi A3 boasts a sleek camera deco, seamlessly integrating elegance with functionality. Its glass and leather-textured back, along with minimalist aesthetics, enhance the daily experience with a touch of sophistication. Three color options are available: the classic and simple Midnight Black, the young and trendy Star Blue, and the rational and profound Forest Green.

Exceptional image quality, interesting photo experience

Equipped with an 8MP main camera paired with an auxiliary lens, Redmi A3 delivers exceptional image quality for scenic landscapes and beautiful portraits. The AI dual camera system ensures photos are always impressive and full of life. The 5MP front camera, enhanced with a soft-light ring and selfie beautify mode, brings out the best in every selfie, naturally brightening the face even in low-light conditions, without any distortion. Additionally, a world of artistic filters is offered in Redmi A3, turning moments into memorable pieces of art.

Super-immersive and smooth 6.71" 90Hz display

Redmi A3 offers an enjoyable and immersive visual experience with its 6.71" display. And with a 90Hz refresh rate, every swipe and scroll is as smooth as butter – perfect for all your browsing and binge-watching needs. The display prioritizes your comfort with Night Light mode and DC dimming, effectively reducing blue light and flicker, ensuring a more enjoyable viewing experience at any time.

Pioneering performance, all-round experience

Powered by the MediaTek Helio G36, Redmi A3 ensures smooth and efficient performance with up to 8GB RAM, including 4GB extended RAM for faster app loading and smoother switching. Its massive 5000mAh battery lasts all day, supported by a Type-C charging port, retaining up to 80% capacity after 800 charge cycles. With microSD card support for up to 1TB storage, Redmi A3 offers high-capacity storage, and the dual unlock options—fingerprint and face unlock—provide quick, secure access. Experience durability with Corning® Gorilla® Glass, safeguarding your screen from everyday wear and tear.

Experience

Secure fingerprint and face unlock | Everyday durability

*Refresh rate can be adjusted to up to 90Hz for supported apps.

*Data obtained from Xiaomi Internal Labs. Actual results may vary.

*4GB extended RAM is based on 4GB RAM version. Create additional RAM will occupy selected amount of ROM storage on your device. Memory extension is only available when there is enough storage space on your device. Actual extension of RAM storage capacity varies across different models. The memory extension function needs to be enabled manually.

*Face unlock feature will be available via a future OTA update.
